

MOHAMED AADHIL

Software Engineer

📍 Colombo, Sri Lanka | ✉ mhmdaxdhil@gmail.com | 📞 +94750213273 | 🌐 Portfolio

🌐 mohamed-aadhil | 🐙 Aadhil-official

Profile

A Results-driven **Fresh Software Engineer** and final-year IT undergraduate with completed internship experience in developing real-world software solutions. Proficient in **RESTful API** development, database design using **PostgreSQL, MySQL, and MongoDB**, and **Agile development** practices. Strong core knowledge in **Spring Boot and React**, with additional experience in **Python, PHP, Node.js, and Next.js**. Skilled in building **performance optimized** applications, **WordPress** development, **SEO** optimization, **intelligent chatbot** solutions, and applied **ML** concepts. A fast learner with strong problem solving, analytical abilities, and a collaborative mindset, delivering robust solutions that drive business success.

Work Experience

Software Engineer Intern / DigitalBee Labs 2025 May – 2025 Nov

- Contributed to live production systems, working across full-stack web development, SEO performance optimization, and AI/ML integration.
- Developed and enhanced Laravel (PHP) applications, including RESTful features, spam email detection ML model using Python (scikit-learn, TF-IDF), and CSV export automation for contact systems.
- Built and customized WordPress CMS solutions (themes, plugins, pages), supporting marketing and analytics platforms.
- Optimized Core Web Vitals (LCP, CLS) using image optimization, lazy loading, critical CSS, and JS deferring, achieving measurable Lighthouse score improvements.
- Applied SEO enhancements including sitemap updates, schema markup, meta optimization, and Google Search Console validation.
- Designed and integrated an AI-powered RAG chatbot using Python, connected to existing company products.
- Conducted AI research and data analysis to support product improvements and forecasting.
- Worked in an Agile environment using Jira, Slack, Git, and Bitbucket, including documentation and final project handover.

Education

University Of Moratuwa 2022 – 2026

B.Sc (Hons) in Information Technology & Management
CGPA: 3.31

Baduriya National School 2020

G.C.E Advanced Level - Physical Science Stream
Chemistry: A | Mathematics: B | Physics: C

Projects

Arctic Management System / Group Project 2023 Dec - 2024 July

🐙 / GitHub

- Developed a real-world software solution to manage job activities and streamline customer support services.
- Led the team as a Full-Stack developer under the mentorship of VaVe (Pvt) Ltd.

Technologies: ReactJS, MongoDB, Spring Boot, Material UI, Figma, JWT

Metro Mobiles (Online Electronic Store) / Group Project 2024 Nov - 2024 Dec

🐙 / GitHub

- Built a online electronics store that provides a seamless platform to browse, purchase, and manage electronic products using microservices architecture.
- Worked as a Back-End developer, focusing on key modules.

Technologies: React, Spring Boot, MySQL, Docker

Smart Laundry System / Individual

2024 Oct - 2025 Oct

 / GitHub

- Created a mobile application that simplifies laundry services with real-time order tracking, automated scheduling, and payment integration.
- Working as a Full-Stack developer.

Technologies: React Native, Spring Boot, MySQL

StudyHub / Individual

2026 Jan

 / GitHub

- Developing a web application with features like an recreated the zoom with you-tube, teacher can share the screen and video, and chatting option for both student and teacher.
- Working as a Full-Stack developer.

Technologies: NextJS, MongoDB, Tailwind CSS, Google Cloud Console

Agencypro

2025 Dec

 / GitHub

- Developing a responsive website with features for internal management system to manage internal stakeholders.
- Working as a Full stack developer.

Technologies: NextJS, MySQL, Tailwind css

E Commerce Application / Team Project

2025 Oct - 2026 Jan

 / Website

- Designed and implemented a dynamic sitemap to improve navigation, scalability, and SEO performance.
- Led the team by planning the project workflow, dividing tasks based on strengths, coordinating development, and successfully handing over the completed system with documentation.

Technologies: Slack, NextJS

Technical Skills

Programming Languages - Java, C, PHP

Web Development - HTML, CSS, JS, Tailwind css, React, Spring boot, Bootstrap, WordPress , Next js

Database - My SQL, MS SQL, Mongo DB, Postgre SQL

Project Management Tools - ASANA, Jira

Operating System - Linux, Windows

DevOps - AWS, Postman, Docker

IDEs - IntelliJ, Code Blocks, CLion, VS Code, Net Beans

Version Control - GIT, GitHub, Bitbucket

Performance & SEO - LCP, CLS, Image Optimization, Critical CSS, Sitemap Generation

Other Tools - Blender, REST API, FAST API

Soft Skills

Leadership

Innovative Problem-Solving

Effective Communication

Adaptability and Quick Learning

Analytical and Critical Thinking

Teamwork
